

# RSGB Yearbook 2025 - Errata Page

The RSGB regrets that the *RSGB Yearbook 2025* callsign section was printed with a relatively small number of partially incorrect records. Around 1% of records are affected and these are listed below.

Ofcom has made the following statement about the data problems.

*Ofcom provide the RSGB with amateur radio licence data each year. Where consent is given, this information is published in the annual call book. Unfortunately, when sharing data for this year's publication there has been an error with some of the formulas used which has resulted in some incorrect details being shared. This information relates to club names being populated against incorrect licence holders. We have identified 1,242 incorrect records that have been shared and therefore published. In instances where this has happened, amateur licence holders have had a club name populated in error against their details or in some cases the incorrect club name. We have provided a corrected file to RSGB and would like to apologise for any concerns or inconvenience this has caused.*

If licence holders wish to discuss this further, we are available by email [spectrum.licensing@ofcom.org.uk](mailto:spectrum.licensing@ofcom.org.uk) or by telephone 020 7981 3131 Mon-Fri 9-5pm. Thank you in advance for your patience and understanding.

**The following callsigns were wrongly attributed to clubs. Please delete the club name. The remainder of the information is correct**
