Charities, Social Enterprises, Care & Healthcare Organisations, Community and Resident Groups, Voluntary Groups, Faith Groups, Associations, Societies, Unions, Clubs and other Not-for-Profit and Public Benefit organisations.

aQmen Underwriting Services (a trading name of Q Underwriting Services Ltd.) is a specialist insurance provider and risk management partner for charities, voluntary organisations, social enterprises and faith-based organisations, and was formed originally as a joint venture between key organisations involved in the not for profit sector. CaSE Insurance is now the name of a range of specialist insurance policies which have been designed to meet the needs of charities, social enterprises, voluntary organisations, community groups, faith-based organisations and places of worship.

At aQmen Underwriting Services we only insure charities and social enterprises. The CaSE Combined Insurance Policy provides extremely broad cover and because we recognize the diverse nature of the sector we can provide the assurance that we understand its needs. In particular, this includes defining volunteers as employees, extending public liability cover to automatically include work away from the main premises and accepting a wide range of activities and events that other standard commercial policies may not cover.

With our insurer partners aQmen Underwriting Services will always aim to offer the right cover, excellent service and the lowest possible premium.

Policy Summary

The CaSE Combined Insurance Policy has been specifically tailored to provide a full suite of covers in an easy-to-understand ‘menu’ from which charities and social enterprises can choose a variety of combinations to suit their particular needs. And as those needs change, so the policy can be adapted.

By combining such covers into one policy, charities and social enterprises can gain greater value for money and benefit from easier administration.

Please read this document carefully

This is a summary of the cover provided by the CaSE Combined insurance Policy. It contains references to the key features and benefits of the policy, as well as references to significant or unusual exclusions and limitations. It does not contain the full Policy definitions, terms, exclusions and conditions and it is important that you read these fully before making any decision about your business insurance. These can be found in the Policy document, a copy of which is available from your advisors.

Risk Management Requirements & Policy Restrictions

Risk Management is a partnership between you, your advisors and the Insurers.

The Policy contains various restrictions, warranties, and conditions, some of which are precedent to the liability of Insurers, intended to either clarify the intent of cover or encourage good risk management practice.

You should try wherever possible to document your procedures, processes and risk management practices.

‘Claims Made’ Basis *

Elements of cover under this Policy are on a ‘Claims Made’ basis. This means that the Policy responds to claims first made against you during the insurance policy period for something which either happens during the policy period or which happened in the past and which only becomes apparent as a claim during the policy period, but it will not cover you for anything which happened prior to the retroactive limitation date which applies. So it is important that you pay close attention to any applicable Retroactive Date.

If you have any questions or concerns, please raise these with your advisors

Aims of the policy

This policy is intended to provide you with protection against many of the risks you face. We aim to ensure that the critical risks you are exposed to are covered by this Policy and that you receive adequate financial compensation following an insured event taking place.

Your commitment

Please remember you must make a fair presentation of the information you provide us which includes every material circumstance which you know or ought to know or, failing that, sufficient information to alert us that we may need to make further enquiries. Failure to do so could affect the extent of cover provided or invalidate the Policy altogether.

The Policy is issued for a 12 month period unless agreed otherwise. You should review your sums insured on a regular basis as inadequate sums insured could adversely affect any claim.

Our obligations

We undertake to provide cover to you according to the terms of the Policy Schedule and the accompanying Policy document. Please make careful note of all the exclusions, conditions and limits of cover, so that you are clear about what you might expect in the event of a claim.

Cover under this Policy is subject to specific limits and excesses. Please refer to your advisors for full details.

Index Linking

The sums insured for Property Damage and Specified Business Equipment will be indexed automatically, unless stated otherwise, in line with overall trends regarding building costs and inflation. At each renewal the premium will be calculated using the new sums insured. Should the index fall below zero the sum insured will not be reduced.

Note: Index-Linking helps to protect you against inflationary increases, such as the cost of rebuilding or the cost of replacing items lost or damaged during the period of repair or reinstatement. If you are not adequately insured, the amount of your claim may be reduced in proportion to the amount you are “under-insured”.

It is important that when you arrange your coverage that the sums insured are set at the correct level and if you are in any doubt you should seek expert advice, it is also important to review your coverage on a regular basis to take account of changes to the Buildings and items purchased or disposed of etc.
